OUTDOOR DECOR

— THE
ITALIAN
STYLE FOR
OUTDOOR
LIVING

A style cultivated with passion

I colori, i profumi, le sonorità di un agrumeto siciliano, fra l'Etna maestoso e il mare trasparente. Giochi di luci ed ombre, alternarsi di culture millenarie e riti quotidiani, microcosmi naturali e architetture rurali.

È uno degli scenari magici e coinvolgenti della collezione Ethimo: la firma italiana dell'outdoor decor, nata da una passione profonda per la natura e divenuta una realtà di successo nel panorama internazionale.

A style cultivated with passion

The colours, smells and sounds of a Sicilian citrus grove, between majestic Etna and the crystal clear sea. Light and shadow effects, alternating thousand-year old cultures and everyday rituals, natural microcosms and rural architecture. This is one of the magical, engaging scenarios in the collection from Ethimo: the Italian outdoor decor brand, which came about as the result of an intense passion for nature and has become a successful international business.

Ein leidenschaftlich gepflegter Stil

Die Farben, Gerüche und Klänge eines sizilianischen Agrumengartens zwischen der imposanten Ätna und dem klaren Meer. Licht- und Schattenspiele, der Wechsel von Jahrtausenden alten Kulturen und täglichen Tätigkeiten, natürliche Mikrokosmen und ländliche Bauten. Hierbei handelt es sich um eines der magischen und ergreifenden Szenarien der Kollektion aus dem Hause Ethimo: Die italienische Marke des Outdoor Decor, die in der Leidenschaft für die Natur ihre Wurzeln hat und sich im internationalen Panorama behaupten konnte.

Un style cultivé avec passion

Les couleurs, les parfums, les sonorités d'une plantation d'agrumes en Sicile, entre un Etna majestueux et une mer cristalline. Jeux d'ombres et de lumières, alternances de cultures millénaires et rituels quotidiens, microcosmes naturels et architectures rurales. Voilà l'un des décors magiques et envoûtants de la collection Ethimo, une marque italienne de mobilier d'extérieur, fruit d'une profonde passion pour la nature et devenue un exemple de réussite à l'échelle internationale.

A unique outdoor experience

La collezione Ethimo esprime una filosofia originale di vita all'aria aperta, nella quale confluiscono emozioni materiche, cura artigianale della realizzazione, creatività originale e continue novità: anche grazie alla collaborazione con Patrick Norguet, protagonista del design contemporaneo. Un incontro dal quale nascono la famiglia Knit, che nel 2016 si amplia con ulteriori elementi per un ambiente outdoor ancora più chic e completo, e il nuovo dondolo Swing, con una doppia struttura che ispira un'avvolgente sensazione di relax.

A unique outdoor experience

The Ethimo collection expresses an original philosophy of outdoor life, where material emotions, painstaking craftsmanship, original creativity and continuous innovation come together: also thanks to the collaboration with Patrick Norguet, one of the leading figures in contemporary design. A meeting which has resulted in the Knit family, which in 2016 will be expanded with further elements for an even more chic and complete outdoor environment, and the new Swing rocking chair, with a double frame that inspires an enveloping sensation of relaxation.

Ein einmaliges Outdoorerlebnis

In der Ethimo-Kollektion kommt eine originelle Philosophie zum Ausdruck, in der stoffliche Emotionen, handwerkliche Verarbeitung, originelle Kreativität und ständige Neuigkeiten im Einklang sind: Natürlich auch dank der Zusammenarbeit mit Patrick Norguet, einer der Protagonisten gegenwärtiger Designkultur. Aus dieser Kollaboration ist die Knit-Serie entstanden, die 2016 durch weitere Elemente, für ein noch schickeres und kompletteres Outdoor-Ambiente, und durch den Swing-Schaukelstuhl, der mit seiner doppelten Struktur umhüllende Entspannungsmomente verspricht, erweitert wird.

Une expérience unique dans le mobilier d'extérieur

La collection Ethimo exprime une philosophie unique de vie en plein air, mariant émotions physiques, attention artisanale apportée à la fabrication, créativité sans égale et nouveautés permanentes, notamment grâce à la collaboration de Patrick Norguet, un acteur de premier plan du design contemporain. Une rencontre qui a donné naissance à la famille Knit - qui s'enrichit en 2016 d'autres membres pour un espace plein air encore plus chic et plus complet - mais aussi à la nouvelle rocking chair Swing dont la double structure inspire une chaleureuse sensation de relax

A natural, exclusive lifestyle

Ethimo è un concetto di continuità fra lo spazio interno, l'architettura esterna e il paesaggio naturale, che si esprime attraverso uno studio approfondito delle forme, dei materiali e dei colori. Il grigio della terra lavica, l'arancio degli agrumeti, il rosso delle ville romane, incontrano le venature del Teak, gli intrecci di fibre, la presenza materica del metallo e della terracotta, componendo soluzioni d'arredo in perfetta e raffinata armonia con la natura. In un giardino privato, un country hotel esclusivo o un elegante resort, Ethimo è sempre più lo stile italiano di riferimento nell'outdoor decor.

A natural, exclusive lifestyle.

Ethimo is a concept of continuity between interior space, exterior architecture and the natural landscape, expressed through an in-depth study of shapes, materials and colours. The grey of the igneous soil, the orange of the citrus groves and the red of the Roman villas meet the grain of the teak, the woven fibres, the material presence of metal and terracotta, composing decor solutions in perfect, sophisticated harmony with nature. In a private garden, an exclusive country hotel or an elegant resort, Ethimo increasingly symbolises Italian style in outdoor decor.

Ein natürlicher und exklusiver Lebensstil

Ethimo liegt die Kontinuität zwischen Innenraum, Außenarchitektur und Naturlandschaft zugrunde, die durch eine umfassende Studie der Formen, der Werkstoffe und der Farben ausgedrückt wird. Das Grau der Lavaböden, das Orange der Agrumengärten, das Rot der römischen Villen treffen auf die Maserung der Teakhölzer, die Fasergeflechte und die stofflichen Noten von Metall und Terracotta, wodurch perfekt und raffiniert mit der Natur harmonisierende Einrichtungselemente entstehen. Ethimo wird immer mehr zum italienischen Referenzstil im Outdoor-Decor, sei es in Privatgärten, in exklusiven Country-Hotels oder in eleganten Resorts.

Un style de vie naturel et raffiné

À travers une étude approfondie des formes, des matières et des couleurs, Ethimo exprime un concept de continuité entre l'espace intérieur, l'architecture extérieure et le paysage naturel. Le gris de la terre volcanique, l'orange des agrumes, le rouge des villas romaines rencontrent le veinage du teak, le tressage de fibres, la présence physique du métal et de la terre cuite pour composer des solutions d'ameublement créant une harmonie aussi parfaite que raffinée avec la nature. Que ce soit dans un jardin privé, dans une belle demeure de campagne ou dans un élégant resort, Ethimo s'impose toujours plus comme le style italien de référence dans le secteur du mobilier d'extérieur.

Swing — design by Patrick Norguet

Dalla collaborazione tra Patrick Norguet ed Ethimo, nasce Swing, collezione lounge caratterizzata dalla duplice struttura: una esterna in metallo, una interna in doghe di teak decapato, come un nido che accoglie il corpo e la mente.

Technical info p. 170

The partnership between Patrick Norguet and Ethimo has resulted in Swing, a lounge collection characterised by a dual structure: an external metal one and an internal one using pickled teak slats, like a nest cocooning the body and mind.

Die Frucht der Zusammenarbeit zwischen Patrick Norguet und Ethimo heißt Swing, eine Lounge-Kollektion mit doppelter Struktur: Eine äußere aus Metall, eine innere aus gebeizten Teakholzleisten, die wie ein Nest Körper und Geist aufnehmen.

De la collaboration entre Patrick Norguet et Ethimo nait Swing, une collection lounge caractérisée par la double structure: une structure extérieure en métal, et une autre intérieure en lattes de teck décapé, comme un nid qui accueille le corps et l'esprit.

Knit — *design by Patrick Norguet*

Nata dalla collaborazione fra Ethimo ed il designer Patrick Norguet, la collezione Knit è una sintesi originale di bellezza e funzionalità, con una qualità curata in ogni particolare: dalla struttura in legno di teak o mogano nero dei tavoli e delle sedute, alla trama intrecciata della poltroncina, in corda di tessuto sintetico, elegante e ideale per l'utilizzo outdoor.

Technical info p. 172

Born from the collaboration between Ethimo and the designer Patrick Norguet, the Knit collection is an original synthesis of beauty and functionality, with a finished quality in every detail, from the wooden structure in teak or black mahogany of the tables and chairs, to the interlaced weave of the armchair, in synthetic roped fabric, elegant and ideal for outdoor use.

Die Kollektion Knit ist das Ergebnis der Kooperation zwischen Ethimo und dem Designer Patrick Norguet. Diese originelle Synthese aus Schönheit und Funktionalität zeugt von einer bis ins kleinste Detail gepflegten Qualität: von der Tisch- und Sitzmöbelstruktur aus Teakholz oder schwarzem Mahagoni bis hin zum geflochtenen, synthetischen Gewebe des eleganten Lehnstuhls, der auch für den Outdooreinsatz ideal ist.

Née de la collaboration entre Ethimo et le designer Patrick Norguet, la collection Knit est une synthèse originale de beauté et de fonctionnalité, avec une qualité soignée dans les moindres détails: de la structure en bois de teck ou acajou peint des tables et des assises, à la trame tressée en corde réalisée dans un tissu synthétique du fauteuil, élégant et idéal pour l'utilisation outdoor.

Costes

Costes esplora le molteplici possibilità espressive del legno: dal mogano verniciato, adatto a diversi contesti, al teak con finitura decapata, dall' affascinante aspetto "vissuto". Ampia la scelta di elementi, sempre con linee armoniose ed essenziali: dai divani, ai tavoli, alle sedie ed ai lettini prendisole.

Costes explores the multiple expressive possibilities of wood: from varnished mahogany, suitable for different situations, to teak with a pickled finish, giving a fascinating "worn" look. A wide choice of elements, always with harmonious and essential lines: from sofas to tables, to the chairs and sun lounger.

Costes erforscht Holz in all seinen Ausdrucksmöglichkeiten: vom lackierten Mahagoni, das zu verschiedenen Kontexten passt, bis hin zum Teakholz mit gebeiztem Finish mit seinem faszinierend "verwitterten" Look. Umfangreiche Auswahl an Elementen mit harmonischer, schlichter Linienführung: Sofas, Tische, Stühle und Sonnenliegen.

Costes explore les multiples possibilités expressives du bois: de l'acajou peint, qui s'adapte à différents contextes, au teck avec finition décapée, en passant par le charmant aspect "vécu". Le choix des éléments est large, toujours avec des lignes harmonieuses et essentielles: des canapés, aux tables, aux chaises et aux baignoires de soleil.

Meridien

Leggero, inalterabile ed eco-sostenibile, l'alluminio si unisce al teak in un raffinato e dinamico incontro di linee e materiali, dando vita a un sistema di divani modulari che permette innumerevoli composizioni e ad una linea di tavoli e sedie per ogni esigenza.

Technical info p. 180

Lightweight, stable and eco-sustainable, aluminium meets teak in a sophisticated and dynamic combination of design and materials, creating a range of modular sofas which allows countless compositions and a line of tables and chairs for every need.

Aluminium, leicht, unveränderlich und ökologisch nachhaltig, verbindet sich mit Teakholz, dynamisch und raffiniert in Design und Materialien, zu einem modularen System von Sofaelementen, das sich zu zahllosen Kompositionen zusammenstellen lässt, und einer Linie von Tischen und Stühlen, die sich jedem Bedarf anpassen.

Léger, inaltérable et eco-durable, l'aluminium s'associe au teck en une rencontre dynamique et raffinée de lignes et de matériaux, donnant vie à un système de canapés modulaires qui permettent d'innombrables compositions; ainsi qu'à une gamme de tables et de chaises pour répondre à toutes les exigences.

The culture of matter

La cultura della materia

La qualità di ogni pezzo della collezione Ethimo, inizia dal valore di un progetto originale, nato dall'interpretazione di concetti e materiali della tradizione, alla luce del gusto e dello stile di vita contemporaneo.

Ethimo seleziona i materiali per le loro doti tecniche e funzionali, ma anche per la loro capacità di donare una sensazione di naturale confort, eleganza e prestigio: alla vista ed al tatto.

The culture of matter

The quality of each piece in the Ethimo collection starts from the value of an original design, the result of the interpretation of traditional concepts and materials, in the light of taste and contemporary lifestyle.

Ethimo selects the materials for their technical and functional qualities, but also for their ability to give a feeling of natural comfort, elegance and prestige: to look at and to touch.

Kultur der materie

Die Qualität jedes einzelnen Artikels der Ethimo-Kollektion beginnt beim Mehrwert eines originalen Projekts, das aus der Auslegung traditioneller Konzepte und Werkstoffe entsteht, nach dem zeitgenössischen Geschmack und Lebensstil interpretiert.

Bei der Wahl der Werkstoffe stehen technisch und funktionelle Betrachtungen im Vordergrund, jedoch spielt auch die Fähigkeit, einen sichtlich und haptisch fühlbaren natürlichen Komfort sowie Eleganz und Prestige zu vermitteln, eine wichtige Rolle.

La culture de la matière

La qualité de chaque pièce de la collection Ethimo commence à partir de la valeur d'un projet original, né de l'interprétation de concepts et matériaux de la tradition, à la lumière du goût et du style de vie contemporain.

Ethimo sélectionne les matériaux pour leurs propriétés techniques et fonctionnelles, mais aussi pour leur capacité de procurer une sensation de confort naturel, d'élégance et de prestige: à la vue et au toucher.

Legni pregiati provenienti da coltivazioni a ricrescita controllata. Fibre sintetiche riciclabili che ricreano le sensazioni dei materiali organici. Vernici che rispettano l'ambiente, con colori ispirati alla natura.

Il mondo di Ethimo prende forma dalla passione per la natura, dalla ricerca del bello e dall'incontro fra la manualità artigianale e le tecnologie innovative. Ethimo, una firma italiana di riferimento nel panorama internazionale dell'outdoor.

Fine woods from cultivations with controlled reforestation. Recyclable synthetic fibres that recreate the sensations of organic materials. Varnishes that respect the environment, with colours that take their inspiration from nature.

The world of Ethimo takes shape thanks to a passion for nature, the pursuit of beauty and the coming together of craftsmanship and innovative technologies. Ethimo, a standout Italian brand on the international outdoor furniture scene.

Edelhölzer aus nachhaltiger Forstwirtschaft. Wiederverwertbare Kunstfasern, die das Gefühl organischer Werkstoffe vermitteln. Umweltschonende Lacke mit natürlichen Farben.

Le monde d'Ethimo prend forme grâce à la passion pour la nature, à la recherche de la beauté et à la rencontre entre l'artisanat et les technologies innovatrices. Ethimo, une marque italienne de référence sur la scène internationale de l'outdoor.

Teak

Il teak selezionato da Ethimo proviene dalle piantagioni regolamentate di Thailandia e Indonesia.

È un materiale eccellente, di elevata qualità, ideale per la realizzazione di mobili da esterno perché estremamente resistente ai cambiamenti di temperatura, all'acqua, all'umidità e alla salsedine.

01 – Teak

Teak

Ethimo teak comes from controlled forest plantations in Thailand and Indonesia.

The result is an excellent, high quality material, ideal for outdoor furniture. It is particularly resistant to changes in temperature, water, humidity and saltwater.

Teak

Das von Ethimo ausgewählte Teakholz stammt aus den kontrollierten Plantagen Thailands und Indonesiens.

Es ist ein hervorragendes Material hochwertiger Qualität, ideal für die Herstellung von Gartenmöbeln, da es auch bei Temperaturschwankungen, Wasser, Feuchtigkeit und Salz extrem haltbar ist.

Teck

Le teck sélectionné par Ethimo provient de plantations réglementées situées en Thaïlande et en Indonésie.

Le teck est une excellente matière, de très grande qualité, idéale pour réaliser des meubles d'extérieur dans la mesure où il est extrêmement résistant aux changements de température, à l'eau, à l'humidité et au sel.

Mogano verniciato

Per gli elementi di arredo in legno verniciato, Ethimo ha scelto il mogano proveniente da piantagioni indonesiane regolamentate. Il mogano è un legno molto resistente e adatto all'uso all'esterno, utilizzato comunemente anche per la costruzione delle imbarcazioni. Dopo l'essiccazione e prima della verniciatura, il legno viene trattato con un prodotto sigillante che chiude i pori rendendolo impermeabile. Le vernici utilizzate sono resistenti agli agenti atmosferici e alle intemperie, garantite da una speciale procedura per il fissaggio del colore.

02
Pantelleria Blue04
Langhe Green03
Ostuni White10
Coral Red06
Lipari Grey08
Stromboli BlackPainted mahogany

As for painted wooden furniture, Ethimo chooses mahogany wood coming from regulated Indonesian plantations. Mahogany is a very durable hardwood, extremely suitable for outdoor use, also commonly used in boat building. After drying and before painting, the wood is treated with a sealant which closes the pores making it waterproof. The paints used are weather resistant and weatherproof, guaranteed by a special procedure for fixing the colour.

Lackiertes Mahagoni

Für die Einrichtungselemente aus lackiertem Holz hat Ethimo von kontrollierten indonesischen Plantagen stammendes Mahagoni gewählt. Mahagoni ist ein sehr widerstandsfähiges Holz, gut für den Aussenbereich geeignet und wird auch im Schiffsbau verwendet. Nach der Trocknung und vor der Lackierung wird das Holz mit einem Versiegelungsprodukt behandelt, das die Poren schliesst und es undurchlässig macht. Die verwendeten Lacke sind wetterfest und durch eine Spezialbehandlung zur Farbfixierung garantiert.

Acajou verni

Pour ses meubles en bois verni, Ethimo a choisi l'acajou provenant de plantations indonésiennes réglementées. L'acajou est un bois extrêmement résistant et adapté à l'utilisation en extérieur. Il est communément employé pour la construction des bateaux. Après le séchage et avant le vernissage, le bois est traité avec un produit d'étanchéité qui obstrue les pores, imperméabilisant ainsi le bois. Les peintures utilisées sont résistantes aux agents atmosphériques ainsi qu'aux intempéries, garanties par une procédure spéciale pour la fixation de la couleur.

Teak decapato

Per donare al teak della migliore qualità un fascino vintage, questo viene trattato con la finitura decapata. Innanzitutto viene spazzolato rendendo la superficie più ruvida e invecchiata, privandola della naturale patina oleosa. Poi viene protetto con un trattamento che lo fa apparire grigio sin dall'inizio. Col tempo acquisirà la naturale patina grigia argentea del teak non trattato, mantenendo al tatto la finitura spazzolata. Questo tipo di teak non deve essere trattato con olio, ma soltanto pulito con acqua e sapone.

05 – Pickled teak

Pickled teak

To give the best quality teak a vintage charm, this is treated with pickled finish. First it is brushed, making the surface rougher and older, depriving it of the natural oily film. Then it is protected with a treatment that makes it look grey from the start. Over time, it takes on the natural silver grey patina, like untreated teak, keeping the brushed finish to the touch. This type of teak should not be treated with oil, but only cleaned with soap and water.

Gebeiztes Teak

Um dem Teakholz bester Qualität einen Vintage-Charme zu verleihen, wird dieses gebeizt. Vor allem wird es gebürstet, so dass die Oberfläche rauer wird und älter erscheint, indem ihm seine natürliche ölige Patina genommen wird. Dann wird es mit einer Behandlung geschützt, die es von Anfang an Grau erscheinen lässt. Mit der Zeit nimmt es die natürliche silbergraue Patina unbehandelten Teakholzes an und erhält beim anfassen den gebürsteten Touch. Diese art Teakholz darf nicht mit Öl behandelt, sondern nur mit Wasser und Seife gewaschen werden.

Teck décapé

Pour donner au meilleur des tecks un charme vintage, le bois est soumis à un traitement de finition par décapage. Il est tout d'abord brossé pour rendre la surface plus rugueuse et vieillie et pour le priver de sa patine huileuse naturelle. Il est ensuite protégé grâce à un traitement qui lui donne dès le début une apparence grise. Il acquerra avec le temps la patine grise argentée naturelle du teck non traité, conservant au toucher la finition brossée. Ce type de teck ne doit pas être traité avec de l'huile mais seulement nettoyé avec de l'eau et du savon.

Comfortable flat rope

È una corda piatta realizzata in materiale sintetico ed utilizzata da Ethimo per realizzare la seduta intrecciata della collezione Knit. Si tratta di un materiale estremamente resistente ai raggi UV, all'abrasione ed agli eventi atmosferici, quindi particolarmente adatto all'utilizzo in ambiente outdoor. Viene proposta nell'elegante colore Lava Grey, adatto ad ogni contesto d'arredo.

70 – Lava Grey

Comfortable flat rope

This is a flat rope made of synthetic material used by Ethimo to create the woven seat in the Knit collection. The material is extremely resistant to UV rays and wear caused by atmospheric exposure, therefore making it particularly suitable for outdoor use. We offer an elegant Lava Grey colour, which goes well with all interiors.

Comfortable Flat Rope

Ethimo verwendet dieses flache Seil aus synthetischem Material um die geflochtenen Sitzmöbel der Kollektion Knit anzufertigen. Es handelt sich um ein äußerst reibfestes sowie UV- und witterungsbeständiges Material, das sich bestens für den Outdooreinsatz eignet. Die elegante Farbausführung Lava Grey passt hervorragend zu jedem Einrichtungskontext.

Comfortable Flat Rope

C'est une corde plate synthétique qu'Ethimo utilise pour réaliser l'assise tressée de la collection Knit. Il s'agit d'un matériau extrêmement résistant aux rayons UV, à l'abrasion et aux autres agents atmosphériques, donc particulièrement adapté à l'usage outdoor. Il s'adapte à tous les contextes d'ameublement et est proposé dans l'élégante version couleur Lava Grey.

Etwick

La fibra Etwick di Ethimo è un materiale sintetico riciclabile che riproduce l'aspetto del midollino assolutamente inattaccabile da agenti atmosferici e dal trascorrere del tempo.

È intrecciata a mano ed ha una finitura ruvida che la rende perfettamente naturale al tatto e alla vista.

Etwick

Ethimo Etwick fiber is completely recyclable and recreates wicker's natural look. It perfectly withstands the elements and the passage of time.

It is handwoven and it has a rough finish which makes it perfectly natural to the touch and sight.

Etwick

Die Faser Etwick von Ethimo ist ein synthetisches Material, das recyclebar ist und das Muster von Korbgeflecht nachbildet, doch dabei absolut vor Witterungseinflüssen und dem Zahn der Zeit verschont bleibt.

Es wird von Hand geflochten und hat eine raue Oberfläche, die es beim anfassen und im aussehen vollkommen natürlich erscheinen lässt.

Etwick

La fibre Etwick d'Ethimo est une matière synthétique recyclable qui reproduit l'aspect de l'osier. Elle est absolument inaltérable par les agents atmosphériques et par le passage du temps.

Tressée à la main, elle se distingue par une finition rugueuse qui fait d'elle une matière parfaitement naturelle aussi bien au toucher qu'au regard.

Lightwick

La fibra Lightwick di Ethimo è un intreccio formato da un filo base di diametro 2 mm a sezione rotonda con cui sono realizzate maglie diverse che danno vita ad una trama irregolare molto confortevole.

Combinata con la struttura di alluminio, è ideale per realizzare elementi dall'estrema leggerezza e resistenza.

Lightwick

Ethimo Lightwick fibre is a weaving composed of a wire base with a diameter of 2 mm with a round section used to create different meshes carrying out an irregular, very comfortable pattern.

Combined with the aluminium frame, it gives shape to outdoor elements characterized by extreme lightness and strength.

Lightwick

Die faser Lightwick von Ethimo ist ein Flechtwerk, das aus einem Grundmaterial mit 2 mm Durchmesser besteht, das einen runden Querschnitt aufweist und mit dem unterschiedliche Maschen realisiert werden, die ein unregelmäßiges, sehr ansprechendes Muster erzeugen.

Mit der Aluminiumstruktur kombiniert, ist es ideal für die Herstellung von Elementen extremer Leichtigkeit und Widerstandsfähigkeit.

Lightwick

La fibre Lightwick d'Ethimo est constituée d'un tressage formé d'un fil de base de 2 mm de diamètre à section ronde permettant de réaliser des mailles différentes donnant naissance à des trames irrégulières particulièrement confortables. Associées à des structures en aluminium, ces fibres sont idéales pour la réalisation d'éléments d'une résistance et d'une légèreté extrêmes.

Metallo

Il metallo Ethimo è lavorato e trattato con processi che ne garantiscono la qualità, la resistenza e la durabilità all'esterno.

Tutta la ferramenta utilizzata è in acciaio inossidabile e la verniciatura è effettuata con vernici a polveri epossidiche specifiche per l'uso all'esterno.

Le vernici utilizzate sono prive di solventi, non contengono VOC (composti organici volatili), non contengono metalli pesanti tossici come cromo e piombo, sono riciclabili al 99%.

Metal

Ethimo metal is processed and treated to ensure optimal quality, rust resistance, strength and durability when used outdoors.

All the hardware used is stainless steel and the paint is made with epoxy powder paints specific for outdoor use.

The paints used are solvent-free, they do not contain any VOC (volatile organic compounds) or any toxic heavy metals such as chromium and lead, they are 99% recyclable.

Metall

Das Metall von Ethimo wird mit Verfahren bearbeitet und behandelt, die die Qualität, die Strapazierfähigkeit und die Beständigkeit im Aussenbereich garantieren.

Alle verwendeten Metallteile bestehen aus rostfreiem Stahl und die Lackierung erfolgt mit speziellen Epoxidpulverlacken für den Aussenbereich.

Die verwendeten Farben sind lösemittelfrei, sie enthalten keine VOC (volatile organic compounds) und keine toxischen Schwermetalle wie Chrom und Blei, sie sind 99% recyclebar.

Métal

Le métal d'Ethimo est travaillé et traité à l'aide de procédés qui en garantissent la qualité, la résistance et la durabilité en extérieur.

Toute la quincaillerie utilisée est réalisée en acier inoxydable. La peinture est effectuée avec des peintures en poudre époxy spécifiquement prévues pour une utilisation à l'extérieur.

Les peintures utilisées sont sans solvant, elles ne contiennent ni COV (composés organiques volatils), ni métaux lourds toxiques comme le chrome ou le plomb. Elles sont également recyclables.

Terracotta

L'argilla con cui sono realizzate le lampade da giardino Step e Tour si trova naturalmente in una delle più belle aree della Toscana. L'argilla prende vita tra le mani di esperti lavoratori delle fornaci della Val di Chiana, in provincia di Siena, adattandosi alla forma dello stampo. Tolto dallo stampo, il pezzo viene purificato dalle imperfezioni. Dopo una lenta ed omogenea fase di disidratazione, i prodotti vengono disposti nei forni per la cottura, che necessita di circa 3 giorni, raggiungendo una temperatura massima di circa 1000 gradi.

Terracotta

The clay which the garden lamps Step and Tour are made of, occurs naturally in one of the most beautiful areas of Tuscany. The clay comes to life in the hands of experienced workers in the furnaces of the Val di Chiana, adapting to the shape of the mold. Removed from the mold, the workpiece is purified by imperfections. After a slow and homogeneous phase of dehydration, the products are placed in ovens for cooking, which requires about 3 days, reaching a maximum temperature of about 1000 degrees.

Terrakotta

Der Ton, aus dem die Gartenlampen Step und Tour hergestellt werden, kommt aus einer der schönsten Gegenden der Toskana liegt. Der Ton wird unter den Händen erfahrener Handwerker an den Brennöfen des Val di Chiana, in der Provinz Siena zum Leben erweckt und passt sich der Form an. Sobald es aus der Form genommen wurde, wird das Stück von den Unregelmäßigkeiten befreit. Nach einer langsamen und gleichmässigen Phase der Austrocknung werden die Produkte zum Brennen in die Öfen gebracht, was ca. drei Tage erfordert und wobei eine Höchsttemperatur von ca. 1000 Grad erreicht wird.

Terre cuite

L'argile permettant de réaliser les lampes de jardin Step et Tour est naturellement présente dans un écosystème très particulier du territoire de l'une des plus belles zones de Toscane. L'argile prend vie entre les mains des potiers experts du Val di Chiana, dans la province de Siéne, en s'adaptant à la forme du moule. Une fois extrait de ce dernier, l'objet est purifié de ses imperfections. Après une phase de déshydratation lente et homogène, les produits sont disposés dans les fours de cuisson, une étape qui dure environ 3 jours et atteint une température maximale d'environ 1000 degrés.

Copertine di riposo

Le copertine di riposo sono realizzate in poliestere (330 gr/mq) reso impermeabile al 100% grazie ad uno strato di PVC. Il tessuto è inoltre resistente ai raggi UV, alle intemperie ed è ideale per l'utilizzo anche in condizioni ambientali estreme o nella nautica. Le cuciture sono sigillate con una membrana impermeabile accoppiata a caldo. Dotate di prese d'aria per assicurare l'aerazione e di coulisse regolabile per la chiusura.

Ethi-Care fabric

Rain cover

The rain covers are made of polyester (330g/m²) and are 100% waterproof thanks to a layer of PVC. The fabric is also resistant to UV rays and bad weather and it is also ideal for use in extreme environmental conditions or on boats. The seams are sealed with a hot-rolled waterproof membrane. Equipped with air intakes to ensure ventilation and an adjustable drawstring for closing.

Regenschutz

Die Abdeckplanen bestehen aus Polyester (330 g/m²), zu 100 % wasserabweisend dank einer PVC-Schicht. Der UV- und Unwetterbeständige Stoff ist ideal auch für Anwendungen unter extremen Wetterbedingungen oder in der Schifffahrt. Die Nähte sind mit einer wasserundurchlässigen, im Heißverfahren aufgeklebten Membran versiegelt. Mit Luftschlitzen zur Belüftung und Tunnelriemen zum Schließen.

Housse de pluie

Réalisées en polyester (330 g/m²), les housses de pluie sont imperméabilisées à 100 % grâce à une couche de PVC. Le tissu résiste également aux rayons UV et aux intempéries. Il peut sans problème être utilisé même dans des conditions environnementales extrêmes ou pour les sports nautiques. Les coutures sont scellées à l'aide d'une membrane imperméable thermosoudée. Elles sont dotées de prises d'air pour assurer la ventilation ainsi que de cordons de serrage réglables pour la fermeture.

Tessuti

Tutti i tessuti della collezione Ethimo sono specifici per l'uso esterno. Oltre ad una particolare morbidezza al tatto, offrono la massima resistenza ai raggi UV e garantiscono una lunga durata. Un trattamento specifico li protegge dai liquidi e dallo sporco e li rende facili da pulire, con una spugna morbida e sapone neutro, oppure in lavatrice a basse temperature.

In particolare i tessuti Waterproof sono spalmati con una pellicola di PVC che li rende impermeabili al 100%.

Fabrics

All the fabrics in the Ethimo collection are specifically made for outdoor use. Other than the particular softness to the touch, they offer the maximum resistance to UV rays and guarantee a long life. A specific treatment protects them from liquids and dirt and makes them easy to clean, with a soft sponge and mild soap, or in a washing machine at low temperatures.

Especially all Waterproof fabrics are characterized by special PVC layer, which makes them 100% waterproof.

Stoffe

Alle Stoffe der Kollektion Ethimo sind für den Outdooreinsatz eignet. Die Stoffe fühlen sich nicht nur extrem weich an, sondern sind auch äußerst UV-beständig und sehr langlebig. Eine spezifische Behandlung schützt sie vor Flüssigkeiten und Schmutz und gestattet eine einfache Reinigung mit einem weichen Schwamm und neutraler Seife oder in der Waschmaschine bei niedrigen Temperaturen.

Das besondere der beschichteten Waterproofs Stoffe, sie sind zu 100% Wasserdicht.

Tissus

Tous les tissus de la collection Ethimo sont spécialement conçus pour l'utilisation en extérieur. En plus d'être particulièrement doux, ils offrent une résistance maximale aux rayons UV et garantissent une longue durée. Un traitement spécifique les protège des liquides, de la saleté et les rend faciles à nettoyer, avec une éponge douce et du savon neutre, ou en machine à laver à basse température.

En particulier, les tissus imperméables sont revêtus d'un film de PVC qui les rend imperméables à 100%.

Knit — design by Patrick Norguet

La collezione Knit firmata Patrick Norguet si arricchisce di nuovi elementi: l'avvolgente poltrona con schienale alto, il sofa semplice ed accogliente, l'invitante lettino prendisole, si uniscono agli altri elementi della collezione, componendo una famiglia ancora più ampia e versatile.

The Knit collection designed by Patrick Norguet is enriched with new elements: the enveloping armchair with high backrest, the simple, welcoming sofa and the inviting sun lounger combine with the other elements in the collection, forming a family that is even more extensive and versatile.

Neue Elemente erweitern die von Patrick Norguet signierte Knit-Kollektion: Der Schalensessel mit hoher Rückenlehne, das einfache und gemütliche Sofa und die verlockende Sonnenliege ergänzen die bestehenden Elemente der Kollektion und bilden eine noch größere und vielseitigere Familie.

La collection Knit signée Patrick Norguet s'enrichit avec de nouveaux éléments: le fauteuil enveloppant avec le dossier haut, le canapé simple et accueillant, le bain de soleil invitant, s'unissent aux autres éléments de la collection, en composant une gamme encore plus vaste et versatile.
