The *Impero* bed

Beauty formed by the perfection of past creations

The refined forms and contours of the **Impero** bed are inspired by the purest, authentic Neoclassical style.

Tasteful elegance in the proportions and symmetry is manifested in the sturdy central piece, with engraving both on its frontal and upper parts, and which joins with the small, gracefully tapered columns on either side, thus giving life to a solid and harmonious structure.

Roberto
GIOVANNINI
FIRENZE 1958

Proposed with wooden frame, decoration in gold leaf (G038 Oro Pitti) and upholstered in silk, the headboard may also be coordinated with the bed base.

The refined decorations and the meticulous attention paid to the smallest details contribute to making the Impero bed headboard one of a kind, and **Roberto Giovannini's** 'night' concept is transformed into an ambient in which elegance and good taste reach their very highest levels.

The sobriety of the style of the long-established Florentine company meets together with the cherished art of carving, to create a perfect harmony of elegance and comfort, and the double bed, thus, becomes an intimate 'oasis' of relaxation and wellbeing.

A sublime ambience, so extraordinarily welcoming, as an accompaniment to your dreams.

A new space for Roberto Giovannini's creations

The Impero headboard awaits you, together with all the latest proposals for 2016, at the new stand in the Salone del Mobile, an international showcase for the world of interior design and furnishings.

A new space where it is possible to continue to inform about and diffuse Roberto Giovannini's aesthetic, productive and conceptual philosophy and to bestow visitors with a unique emotional experience.

Salone Internazionale del Mobile 2016

Milan, 12/17 April
