

***Verto* designed by Simone Cagnazzo for Liu Jo Living**

Verto, designed by **Simone Cagnazzo** for **Liu Jo Living**, stands out for its essentiality and simplicity. It is born through subtraction, embracing a clean and refined design that harmoniously integrates into any setting.

The spaciousness and comfort of ***Verto*** transform it from a simple sofa into a cozy nest, where enveloping cushions accentuate the sense of protection and comfort, offering an oasis of tranquility and relaxation at home.

Thanks to the double backrest and the width of the seat that expands fully, guests of the **Liu Jo Living** residence can immerse themselves in daily leisure. Like in a thalamus (from Latin thālāmus and Greek θάλαμος), the "innermost room of the house" now becomes the place for one's "self-care," both in solitude and in pleasant company, offering an experience that combines contemporary comfort with historical tradition.

In ***Verto***, aesthetics and measurements truly make a difference, especially within recently built apartments, often characterized by limited dimensions.

Liu Jo Living's new proposal enters the catalogue as a valid support in the design of interiors that must respond to dynamics and logics of contemporary living. Thanks to its design specifically tailored to adapt to different living contexts, ***Verto*** offers a harmonious combination of style and functionality, ensuring maximum comfort even in limited spaces.

With its simple and intuitive opening, ***Verto*** guarantees high performance and impeccable quality standards, maintaining a strong commitment to the environment and the ethical and social values that are fundamental to **Liu Jo Living**'s entrepreneurial philosophy.

As with other products already in the catalogue, the recyclability of ***Verto*** is guaranteed by the removable covers of all upholstered elements and by the search for the best materials for the production of individual components.

Born of a time stolen from the frenzy of life, ***Verto*** offers a moment of daily leisure to be reserved for oneself
